PROFILE

Business Analyst with a **Master's degree in Business Intelligence & Analytics** and 2+ years of commercial experience across hospitality, consumer and e-commerce. Experienced in cleaning and transforming complex data into clear commercial recommendations for senior and non-technical stakeholders using SQL Server, Power BI, Excel, Tableau and Python. Seeking roles in Business Analysis, Data Analysis or Market Analysis where I can combine analytical rigour with real-world marketing insight.

SKILLS

- **Data Visualisation & Reporting:** Power BI (interactive dashboards, DAX, data modelling), Tableau, Microsoft Excel (advanced, scenario modelling)
- **Data Handling & Programming:** SQL Server (querying, cleaning & data extraction), Python (basic data analysis), Google Analytics
- **Business Analysis:** KPI/RAG reporting, budget scenario modelling, ROAS & CAC analysis, risk control matrices, investment appraisal
- **AI & Workflow:** Claude, Cursor, GitHub, Vercel
- **Digital Marketing:** SEO strategy & optimisation, content calendar planning, social media management (Facebook, YouTube), campaign creation, copywriting, landing page tools (Figma)
- **Analytics:** Market research, competitor analysis, customer-segment analysis, content performance tracking, hashtag & trend research
- **Core Competencies:** Problem-solving, critical thinking, stakeholder communication, business storytelling, cross-functional teamwork

EXPERIENCE

- **Word4Word Legal Translation Services Ltd** July 2026 – Present
Conference Interpreter (Freelance) United Kingdom (Hybrid)
- **Bridging the Silence – Youth Mental Health Campaign** March 2026 – September 2026
Project Analyst Manchester, UK
 - Coordinated a 9-person team using KPI/RAG reporting, budget scenarios and an 18-risk control matrix, supporting 100+ registrations and 50+ enquiries
 - Designed the registration and donation journey to improve the campaign's user experience
 - Used Claude and Cursor to build the campaign website, deployed with GitHub and Vercel, validating outputs before launch
 - Coordinated with data scientists to integrate the GoFundMe API, enabling live tracking of real-time donation data with timestamps
- **Cedar Court Hotel – Dissertation Consultancy Project** June 2025 – September 2025 
Business Analyst (Contract) Huddersfield, UK
 - Prepared 2,500+ KPI records across 426 days of data for 12 hotels, using Excel and SQL to clean and structure the data
 - Analysed hotel revenue KPIs to benchmark hotel performance and identify off-peak demand gaps
 - Built an Excel scenario model for a £4,000 annual digital budget across three locations, using attributable revenue, CAC and planned ROAS
 - Identified the strongest market at 2.98x planned ROAS vs 1.97x overall, supporting tighter spend and margin controls
 - Built a Power BI dashboard to assess a £320k long-stay investment, estimating a ~10-year payback and supporting a no-go decision plus a lower-cost family-suite alternative, presented to senior leadership
 - Aligned recommendations with *Green Tourism Guidelines* to support sustainability goals
- **University of Huddersfield** September 2023 – December 2025
Student Ambassador Huddersfield, UK
 - Produced high-impact promotional videos showcasing student life and academic programmes, driving awareness and prospective student engagement
 - Scripted, filmed, and produced multimedia content for marketing campaigns, applying storytelling techniques to maximise audience reach

- Represented the university across digital platforms, strengthening brand visibility and supporting student recruitment objectives
- *Key Achievement:* Videos trended on university channels, consistently achieving above average engagement metrics
- **Joint Stock Company Delia Beauty / Dental**  November 2021 – September 2023
Hanoi, Vietnam
Business Analyst
 - Used Excel to track spend, enquiries, conversion, revenue and estimated margin against a £16,400 monthly campaign budget
 - Produced weekly performance reports for the Marketing Manager, highlighting underperforming ads and higher-return opportunities
 - Compared channel and customer-segment performance to identify higher-value audiences and stronger revenue opportunities
 - Used Google Analytics and campaign data to improve the overseas-customer journey, increasing conversion from 12.30% to 15.62% and organic traffic by 72%, contributing 25–30% of total revenue
 - Supported SEO, keyword research and content calendars across Facebook and YouTube, and built campaign microsites in Figma for lead generation

EDUCATION

- **University of Huddersfield** September 2024 – July 2025
MSc Business Intelligence and Analytics – 2:1 Huddersfield, United Kingdom
 - Key Competencies: Predictive Modelling, Advanced Data Visualisation, Business Intelligence, Data-Driven Decision-Making
 - Technical Proficiency: Applied SQL and Python for data extraction/analysis; utilised Power BI and Tableau for interactive dashboards and reports
 - *Analysing Big Data – Airline Analysis (71/100):* Analysed airline reviews using Python and Tableau to show what drives passenger satisfaction, customer-segment differences and service-quality trends, with service strategy recommendations
 - *Stock Market Analysis (71/100):* Analysed Index 100 stocks using Python and Excel, combining stock-market and financial statement data to compare performance, risk and forecast trends to support an investment recommendation
- **University of Huddersfield** September 2023 – July 2024
BA (Hons) Global Marketing – 2:1 Huddersfield, United Kingdom
 - Developed expertise in market research, digital marketing, consumer behaviour analysis, and basic quantitative analysis
- **Hanoi University of Science and Technology** September 2020 – July 2023
BA Technology and Business Management (Bilingual) – First Class Honours Hanoi, Vietnam
 - Built strong foundational knowledge in economics, management, technology and business communication

PROJECTS

- **Market Feasibility Study – Cedar Court Hotel (Group Consultancy Project)** June 2025 – September 2025
Tools: SQL Server, Excel, Power BI, Porter's Five Forces, Ansoff Matrix [Thesis] 
[Supervisor: Ms. Janna Wood ]
 - Analysed feasibility of a £320k long-stay accommodation expansion across three locations (Bradford, Huddersfield, Wakefield), benchmarking 14 competitors on occupancy, Average Daily Rate, and Revenue per Available Room
 - Cleaned and structured 2,500+ KPI records across 426 days for 12 hotels using SQL, then built Power BI visualisations to identify revenue trends, occupancy patterns, and off-peak demand gaps
 - Developed a phased pricing model combining full-cost and penetration pricing strategies with tiered discount structures to balance CAPEX recovery and market competitiveness
 - Designed a go-to-market content strategy for a £4,000 annual digital budget, including media channel selection, campaign phasing, and a KPI tracking framework for social media performance
- **Bridging the Silence – Youth Mental Health Social Impact Project** March 2026 –
Skills: Survey Design, KPI Frameworks, Data Analysis, Content Strategy, Web Development [Project Plan ] [Production Checklist ] [Project I
 - Designed the KPI framework tracking 17+ indicators (output, outcome, impact) with RAG-status dashboard for a 6-week programme targeting 200+ parents and 500+ students across 3+ schools
 - Developed dual-channel communication strategy: warm-authority tone for parents (Facebook/Zalo, Connection Kit) and peer-voice tone for students (Social Medias, in-school posters)
 - Guided workshop content by analysing survey data to align topics with top 3 parent-prioritised concerns per school
 - Presented the project at The Project Darts Leader Incubator 2026 Finale Day
- **Global Equity Research – Stock Pitch Competition** October 2025 – February 2026
Tools: Excel (Financial Modelling), Market Analysis [Grifols Stock] [Limbs and Things Research] [TradeWaves - MWG] 

- Researched three listed companies to assess investment attractiveness for The Project Darts Vietnamese–UK Stock Pitch Competition, finishing in the Top 5 out of 30 teams
- Built Excel revenue and margin forecasts under bear, base and bull scenarios to support investment recommendations
- Presented the commercial “so what” to a panel, defending assumptions and explaining downside risks
- **University Promotional Video Campaign** September 2023 – December 2025
Skills: Video Production, Scripting, Storytelling, Digital Marketing [Video 1 ] [Video 2 ] [Video 3 
 - Represented the University of Huddersfield by creating impactful promotional videos showcasing student life and academic offerings for the university’s international channels
 - Developed storytelling-driven multimedia content for marketing campaigns, scripting, filming, and producing end-to-end video to maximise audience reach and prospective student engagement
 - Enhanced the university’s digital presence across Instagram and YouTube, effectively elevating brand visibility and supporting student recruitment objectives
 - Gained practical skills in video production, scripting, and digital marketing strategies applicable to content-led campaign roles

EXTRACURRICULAR ACTIVITIES

- **Power BI Community Competitions** Ongoing
PRO Reports Challenges by ZoomCharts; Onyx Data Online
 - Build dashboards from real-world datasets, using DAX, data modelling and visual storytelling to present clear business insights
- **The Project Darts Stock Pitch Competition** October 2025 – February 2026
Equity Research Analyst UK
 - Conducted equity research and financial modelling for a Vietnamese–UK competition, placing Top 5 out of 30 teams
- **Students of Bath Investment Club (SOBIC)** October 2025 – May 2026
External Portfolio Manager Support UK
 - Supported portfolio research and investment analysis, gaining practical exposure to stock selection, portfolio monitoring and investment decision-making
